GREEN PROMISE

LUREC's fundamental guiding principle is conservation on our campus through reducing, reusing, and recycling. Loyola is committed to restoring and maintaining the biodiversity of our campus, and during your stay with us, we invite you to take part in our mission of sustainability, conservation, and restoration. As part of our green promise, we installed a geothermal system in our north wing so that guests can enjoy the ground's gift of warmth in the winter and coolness in the summer.
